Star Wars lives on in the hearts of millions of fans and moviegoers all over the world. The movie was released on May 25, 1977 and became the most successful movie of all times. The movie was shot in the California desert, and was a revolution in the world

of cinema. It was the first film to be released on its own, outside of the theatre. It broke all sales records and remains the second biggest money maker ever, second to “Jurassic Park”. The film is a futuristic-fantasy adventure in space, set in the Star Wars universe. It follows the exploits of

a group of rebel fighters, who are fighting against the evil Galactic Empire. Each of the scenes in the movie was made by a single special effect, making it one of the greatest movies of all time. Our screensaver features 100 scenes from the greatest movie ever, with characters like Luke

Skywalker, Darth
Vader, C-3PO, Yoda,
R2-D2, Chewbacca,
Obi-Wan Kenobi,
Princess Leia, Darth
Maul, Emperor
Palpatine, Princess
Padme Amidala, Mace
Windu, Darth Tyrannus,
General Grievous and
more. You can change
the weather between
day and night and give
the whole scene a

different look. It also has a wide range of screensavers options to show you all the possibilities. Features: • 100+ high quality images in the quality of your desktop. • Ambience can be changed between day and night and between cold and warm. • Includes music and sound effects from the

movie. • The scenes can be changed to show a different image each time you start the screensaver. • Interact with the scene. Move your cursor on the screen and it will react to your actions. • Create your own screensaver with more than 15 scenes. • Create your own look with the many

wallpapers available. •
High Quality graphics.
• No installation
required. • No
additional components.
• No registry entries. •
No adware or spyware.
• The software works
on all Windows
computers. • The
