LingvoSoft Dictionary 2008 English - Arabic Crack+

LingvoSoft Dictionary 2008 English - Arabic is an impressive and unique Arabic dictionary that consists of three elements: Linguistic, Interface, and Integration. The linguistic element of the new LingvoSoft Dictionary includes extended and corrected vocabulary, an advanced Spell-Check function that lets you find misspelled and incorrectly entered words, and a Synonyms Search function that lets you request a list of synonyms for a selected word. With a new Word-By-Word Translation function, you can type a sentence and quickly get a translation for each word, Every translation is complete with part of speech, gender, comment, transcription, sentence examples and includes transcriptions of English entries. The improved documentation now provides language information for almost 40 languages, as well as English Grammar information. The user interface is now more adaptable than ever before. Toolbars, font settings and colors can be changed according to your preference. English, French, German, Spanish and Russian language interfaces are also available. A quick paste and translate function called 'Word grabber' helps you to translate a selected word from another application with just one click. Input Line search speeds up the work by finding the words matching any sequence of symbols as entered, so you never need to type the whole word. An all-new 'History' function lets you easily view and select previously entered words. Among the most significant changes to be found is the inclusion of a User's Dictionary which allows you to maintain a personalized vocabulary that you can create, add, and edit anytime you need it. Finally, the most requested new feature, integration with the most popular MS Office applications - Word, Excel and Internet Explorer - saves you time and energy by letting you translate an unknown word directly from within a

document or webpage. And, of course, LingvoSoft Dictionary 2008 English - Arabic is fully integrated with the other components of LingvoSoft Suite - LingvoSoft FlashCards and LingvoSoft PhraseBook. Simply select and export words to the FlashCards database or search the PhraseBook for phrases containing the desired word. Newly improved and updated, and providing instant bi-directional translation of all the words and phrases in its massive database, LingvoSoft Dictionary 2008 English - Arabic is one of the most complete language resources ever designed.
