## **Elden Ring For PC (April-2022)**

Seria DESURA.CR Seria DESURA.CR (formerly known as Seria Online as a client for Windows) is a fantasy role-playing game developed by Cygames and published by Cygames in 2007. Seria was the first of a new genre of fantasy role-playing games for the Nintendo DS, known as the Role-Playing Series. Seria Desura.CR is the game's North American English localisation. Seria (セリア, Hepzuria) is a short form of either "Seria" (セリア) or "Hepzuria" (ヘプゾリア, Hepzura). Hepzuria is used in reference to the Hepzur tribe who guide the main character's throughout the game. The game takes place in the lands in between the human world and the Elden Ring, often referred to as the "Land Between Worlds". The main character is a young "Elden Lord", whose family and people have been killed by a "Tarnished" or "Black Blood", who seeks to eradicate the healthy world. Seria is a point in the Lands Between, a world where people and Elden Lords coexist. Gameplay The player takes on the role of an Elden Lord or Lady, a member of the elite new race, and defeats other Elden and human characters alike. The player begins the game in a fairly weak state, but by gaining experience points and stat points they can eventually level up, gain new powers, and unlock new skills. Players can also farm for experience points through the use of a special attack which destroys an enemy's "stat points" and some dropdowns. The game is broken into chapters. In each, the player must defeat a number of enemies before advancing to the next area and clearing all the enemies in that area. Once all the enemies have been cleared, the player's character then levels up. After a level-up, the character gains one stat point and one SP point, which can be used to customize your character. Items and skills which are unlocked at a certain level are divided into Skill Categories, similar to X-Com. Depending on the choice of Skill Category, the character will have access to certain types of items and skills. SP can be used to rank-up an item in a Skill Category. attacks with equal strength not only greatly affect your defense but also attack your ability to counterattack. Consequently, it is a battle wherein the use of tactics becomes indispensable.
