This is my user profile: And this is what I see when I go to my profile: Any ideas? A: Well, I can't really explain why, but for whatever reason, changing my profile picture from the Gravatar SRC to a URL and changing the CSS made it work. My profile picture is now: Q: How can I get the selected value in a dropdown control in angularjs I am using the following select tag to show dropdown menus inside ng-repeat Now I want to get the value of the selected menu from the dropdown control. Can any body please provide me the solution. A: try this : you can get the selected item by using this.SelectedMenu The eminent geneticist and coiner of the term "gene" (or 'geneva'), Ernst Mayr was an early adopter of the genetic concept. "I have often felt lonely, but for some reason I never thought of myself as an individual. As a student at the Imperial Institute for Genetics I used to travel around the country to lecture on genetics. There was hardly a lecture in 648931e174
