credits page to include the catalog number. Batman Begins is a 2005 computer-animated superhero film based on the DC Comics character Batman, and is the first of the DC Extended Universe. The movie was produced by Warner Bros. Pictures, Warner Animation, and DC Entertainment, and was directed by Christopher Nolan, with Christian Bale as Batman, and Michael Caine as Alfred. The film is closely based on the comics story arc "The Dark Knight Returns", and features the return of a number of characters and villains from the previous Batman film, including Harvey Dent/Two-Face, Jim Gordon, and a resurrected Bane, who attempts to kill a captured Batman and who, in the comics, is the archenemy of Batman. In the game, the player controls the title character as he defeats Bane in a battle and saves Gotham City from his Brotherhood of the Damned, the city's supervillains and thugs who unite under the banner of a mysterious extremist group known as the League of Shadows.
