## Abbasi Font Hindi

i am going to use my fonts to make a few handouts for my students. i am going to make the handouts in a similar style to the new handout my school district is using, which is called 'linear learning path' (l.l.p). the fonts i am using are the 'akshata' and 'baishali'. i am going to use the 'akshata' for the first handout, and then i am going to move on to the 'baishali'. i am going to use a lot of the same features in the 'baishali' that i am using in the 'akshata' in the first handout. i will continue this practice when i make the next batch of handouts. roughly, hindi fonts are used for display and printing the text, hence they are popular across the globe in some form or the other. in order to present something to a customer, it's important to opt for a beautiful font that can be used for printing and display purpose also. a beautiful font should help in creating a good impression on a customer. a font that could be used for both display and printing purposes is the best.

2. roth gregory a, abate d, hassan abate k, abay sm, abbaftati c, abbasi n, et al. global, regional, and national age-sex-specific mortality for 282 causes of death in 195 countries and territories, 1980-2017: a systematic analysis for the global burden of disease study 2017. lancet 2018;392:p1736-88. i'm new to android field. i have followed the procedure of getting hindi fonts on emulator but still hindi characters are appearing in square boxes. please
