sending me a validation error. How would I go about fixing this? Answer: Speed increase is all about having a Fast Web Server. So, depending upon your hosting provider it may be a problem with their server. In my case I was having a problem with increasing bandwidth. Then I changed my hosting provider and It was resolved. Make sure that you are using a reliable hosting provider. If you are using shared hosting, then make sure that you are not using too much resources on the server side and also on the data side. But if you are using a VPS then increase the resources for the server and also for the data.
