Kon Boot 2.2 Download

The E2B USB drive works with many older models of PC as well as IBM/AIX and Linux PCs. Kon-Boot is for use with Windows 2000, XP, Vista, Win 8, 8.1, Windows 7, Windows Server 2003 and earlier. You can also use it to create a bootable media for OSX (OSX 10.6 Snow Leopard, 10.7 Lion, 10.8 Mountain Lion, 10.9 Mavericks, 10.10 Yosemite, OSX 10.11 El Capitan, 10.12 Sierra and 10.13 El Capitan) that can be used with Mac computers without requiring a serial number or Apple ID/PW. By downloading Kon-Boot for OSX you can boot into OSX directly rather than needing to boot from a bootable OSX DVD/CD. After creating a E2B USB drive, Kon-Boot will automatically boot your computer into a menu that allows you to select which operating system or operating system version you want to boot. You can also disable the autoboot of the USB drive and boot it separately. Sometimes it is useful to boot a USB drive to a folder of your choice which can be done with Kon-Boot. Theres a tutorial for this at here . You can also do this with the conventional Kon-Boot 2.x . Kon-Boot 2.2 is fully compliant with the EU Data Retention Directive (2007/77/EC), which makes it ideal for government use as well as for any organisation looking to protect and secure their confidential data. Kon-Boot 2.2 is also used in K-12 schools to prevent the illicit copying of software and textbooks. 5ec8ef588b
