Hindi Movies Full hd Movies Free Download Hd Movies Free Full Movies DownloadQ: AWS EC2 not finding and connecting to MySQL server I have configured my EC2 instance to access an existing MySQL server. I can access the server via the console and run queries via mysql. I created an Instance Profile and set the Access Keys to that Instance Profile and then I turned it on (not authorised). I set up an instance in the security group to accept connections from the EC2 instance IP address (tried both v4 and v6). The DB server and EC2 are on the same VPC. Both IP addresses from the EC2 instance are accepted by the DB server and are correctly logging in. My EC2 instance has the correct name of myDB:3306 (and uses that name to log into the DB), but I can't get it to connect. I've tried using both IP addresses of my EC2 instance, but am not using any DNS services to resolve to a name. The instance itself shows as OK. I have tried restarting my EC2 instance, trying different connection settings, etc. but still no luck. I have the following in my security group: Type Protocol Source
