Trading Commodity Futures with Classical Chart

Patterns.pdf. A commodity market is a market that trades in the primary economic sector rather than manufactured products, such as cocoa, fruit and sugar. Hard commodities are mined, such as gold and oil. Futures contracts are the oldest way of investing in commodities.. Classical civilizations built complex global markets trading gold or silver for Greek traders traded with tin for goods and not much in the way of trading of commodities. tin went through a series of owners many of whom wanted to keep their commodity for their own use. Alexander the Great famously cheated people of their tin to line his ships. He did not own or acquire in any way any tin, just the contract. The idea of trading one commodity for another commodity occurred by the development of a more organized state around 600 BC. King Solomon was the first ruler to begin to develop structured organizations that traded for commodities, the same way any other business would. Many people believe that the commodities market did
